

Marion County Business Directory

The listing below represents the business and resources available to Marion County residents and visitors. If you would like to sort this list by city, business name, etc, click on the heading title you would like it sorted by. Clicking the same heading a second time will sort it in reverse order. The listing is sorted by category by default.

If you would like to filter the list, enter your filter text in the boxes above the category you wish to filter by and click on the "Go" button. For example, if you want to only see business listings in Burns, type "Burns" in the box above the "City" category and click on the "Go" button. The list will filter out everything that is not listed in the city of Burns. Filtering also works with partial words. For example, if you are looking for the name of a business, but are not sure of it's exact name, or what category it might be in, but you do remember it had "Ag" in the name, you could type "ag" in the box above the business name and click on the "Go" button. The list will filter out everything that does not have "ag" in it's name.

If you have a business in Marion County that is not listed, please contact [Teresa Huffman](#), the Marion County Director of Economic Development.

Unless a different area code is indicated, all telephone numbers are area code 620.
